EDUCATION

- **Royal College, Colombo 07**
Advance Level Examination - Physics: A, Mathematics: B, Chemistry: B 2022
- **University of Moratuwa**
BSc Eng Hons in Transport Management and Logistics Engineering 2024-2028

TECHNICAL SKILLS

- **Languages:** Python, C#, SQL | **Data:** Power BI, Machine Learning | **Simulations:** CUBE, SUMO

LEADERSHIP & VOLUNTEERING

- **Project Chair Person | Data Storm v6.0 with OCTAVE (Pvt) Ltd** - Subsidiary of John Keels Holdings 2025
Data analytics competition: Led an industry-collaborative project, managed stakeholder communication, project timelines, and task allocation to ensure on-time delivery.
- **Project Leader | Project Beyond the Books with Atlas Axillia (Pvt) Ltd** - Subsidiary of Hemas Holdings 2025
School library renovation project: Managed corporate stakeholders, securing resources, and supervising volunteer activities to ensure successful project completion.
- **Officially inducted member of the Rotaract Club | University of Moratuwa** 2025
Led and assisted in the planning and execution of multiple university and community service initiatives, managing event coordination team communication.

TECHNICAL PROJECTS

- **Unloading Traceability App | for Garumuni Foods (Pvt) Ltd** 2026
Sole-developed a **WebView** application that digitized the unloading workflow with **real-time Google Sheets** integration and automatic mismatch detection. **Reduced the workflow from three people to two.**
- **Supply Chain Performance & Risk Analytics Dashboard | Power BI** 2026
Analyzed **180K+** supply chain transactions from global markets using **Power Query** and **advanced DAX** with an interactive multi-page dashboard
- **Supply Chain Control Tower** 2026
Designed and built an AI-powered Supply Chain Control Tower using **Relay.app**, implementing **multi-stage workflow logic** to automatically detect shipment disruptions, evaluate business impact, and produce decision reports. **Google Sheets** was used as the operational data source to simulate real-world logistics systems.
- **Retail Demand Forecasting & Inventory Analytics System | Microsoft Excel** 2026
Developed an interactive Excel analytics dashboard for **421K+ Walmart** transactions, using **Power Query** to structure data and **Pivot Tables** to build KPI dashboards. Integrated **Moving Average, Exponential Smoothing**, and **EOQ** models to optimize demand forecasting and inventory planning.

CERTIFICATIONS

- Prepare and analyze data on MS Excel - **Microsoft**
- Analyze and Visualize data through MS Power BI - **Microsoft**
- Gen AI Prompt engineering - **IBM**
- AI & Machine Learning engineering - **SLIIT**
